

FACILITATOR RUN-SHEET

The Executive Brand Intensive

Adam Anderson · IGNITE Center, Norcross GA · 1:00–4:00 PM ET · 12-seat cap · 6 blocks · 15 finished assets

The day at a glance

#	Block	Time	Duration	Walk-outs
1	Foundation — Who you are on the record	1:00–1:30 PM	30 min	2
2	Voice — Sound like yourself at scale	1:30–2:00 PM	30 min	4
3	Signature Content — The Authority Trio	2:00–2:45 PM	45 min	3
4	Distribution & Repurposing	2:50–3:30 PM	40 min	4
5	The Compounding System	3:30–3:55 PM	25 min	5
6	Commitments & the 90-day cadence	3:55–4:00 PM	5 min	3

Persuasion engine to preserve

- **Contrarian opener** — anchor a before/after in one breath.
- **Category disqualifier** — name what this *isn't* (course, ghostwriter, framework deck).
- **Time-compression promise** — 3 hours = \$15K–\$40K of agency work.
- **Done-in-room vs. finish-at-home** — name both, never blur.
- **Scarcity + intimacy** — 12 seats, one operator.
- **Operator authority** — Citi / Mayo / 3M / Disney / Caribbean government / 5 summits.
- **Public commitment close** — said aloud, blocked on calendar before they sit.

BLOCK 1 · 1:00–1:30 PM · 30 min

Foundation — Who you are on the record

Lock the positioning, three pillars, audience, and proof points every future asset inherits from.

Facilitator beats

- Open with the contrarian: 'You walked in with a title. You'll walk out with a brand that ships without you.'
- Frame the day: 6 blocks, 15 finished assets, \$15K–\$40K of agency work compressed into 3 hours.
- Each exec uploads bio + LinkedIn + 2 past posts + company URL + 1 competitor URL.
- Run the Brand Assessment live on one volunteer first; then everyone runs theirs.
- Generate the Brand Blueprint — read it aloud, lock it. This is the single most important artifact.

Walk out of the room with

- ✓ Brand Blueprint: positioning, 3 pillars, audience, proof points
 - ✓ Brand Assessment Report: gap analysis vs. category peers with prioritized white space
-

BLOCK 2 · 1:30–2:00 PM · 30 min

Voice — Sound like yourself at scale

Capture tone, vocabulary, and cadence so every future asset sounds unmistakably like you — not generic AI.

Facilitator beats

- Train voice on the past samples uploaded in Block 1.
- Generate three bios in one pass. Read them aloud — if it doesn't sound like you, edit live.
- Generate the headshot set from one source photo.
- Save three pillar presets. Test one on a sample brief to confirm voice holds.
- Hard stop: every attendee replaces their LinkedIn About before Block 3 starts.

Walk out of the room with

- ✓ Voice profile — tone, vocabulary, cadence, sentence rhythm captured
- ✓ Three bios — 50w / 150w / 350w — copy-paste ready
- ✓ Executive Headshot Set — LinkedIn, press, speaker tile, podcast
- ✓ Three saved pillar presets (audience + domain + weighting)

Finish at home

- Paste the new About into LinkedIn before you leave the room.
-

BLOCK 3 · 2:00–2:45 PM · 45 min

Signature Content — The Authority Trio

Three publish-ready pieces — Op-Ed, POV post, framework carousel — each doing a different job in your authority engine.

Facilitator beats

- Op-Ed first: brief → draft → polish in voice. Auto-validate against the Blueprint.
- POV post: strip the executive hedging. Take a stance the category is too polite to take.
- Framework carousel: name the methodology. Named frameworks become moats.
- Stretch break at 2:45 (5 min).

Walk out of the room with

- ✓ Op-Ed / thought leadership article (800–1,200 words) on your #1 pillar
- ✓ POV post — contrarian, publish-ready, designed for conversation
- ✓ Framework carousel — 7 slides of your proprietary methodology

Finish at home

- Publish the POV post today — before you leave Block 6.
-

BLOCK 4 · 2:50–3:30 PM · 40 min

Distribution & Repurposing

Convert one idea into five channels in 40 minutes — the multiplier most executives never operationalize.

Facilitator beats

- One-shot syndication: push the POV post to LinkedIn + X, native per platform.
- Reshape the Op-Ed into a newsletter issue (subject + preview + body).
- Reshape again into a 5-min keynote opener with 3 Q&A points.
- Build the 14-day calendar from the Op-Ed and carousel cuts. Schedule auto-publish.

Walk out of the room with

- ✓ Newsletter issue — subject line, preview text, full issue derived from the Op-Ed
- ✓ Keynote opener + 5-minute stage script + executive Q&A talking points
- ✓ Two weeks (14 days) of scheduled social posts, auto-publishing
- ✓ Press release draft (optional)

Finish at home

- (Optional) Send the press release to your media list this week.
-

BLOCK 5 · 3:30–3:55 PM · 25 min

The Compounding System

Wire the operating system so you never need us, an agency, or a ghostwriter again.

Facilitator beats

- Each exec picks one real prospect. Runs the research → tailored asset loop end-to-end.
- Generate the 30-Day Sprint and 90-Day Arc.
- Generate the Personal Brand Operating Manual PDF.

Walk out of the room with

- ✓ 30-Day Authority Sprint — sequenced day-by-day, ready to execute
- ✓ 90-Day Newsletter Arc — next quarter's themes and through-lines outlined
- ✓ Tailored outreach: one real prospect researched → one tailored email or post
- ✓ Organized workspace — every asset filed under your name
- ✓ Personal Brand Operating Manual (PDF) — weekly ritual + content triggers + metrics

Finish at home

- Run the 30-min weekly cadence — that's the entire ongoing time commitment.

BLOCK 6 · 3:55–4:00 PM · 5 min

Commitments & the 90-day cadence

Public commitment is the accountability mechanism. Each exec states three commitments aloud to the room.

Facilitator beats

- Stand up. State the three commitments aloud.
- Block the recurring 30-min cadence on the actual calendar before sitting back down.
- Offer the optional 30-day check-in tier.
- Close: 'You walked in with a title. You're walking out with a brand that ships without you.'

Walk out of the room with

- ✓ Today's post: stated and queued
- ✓ This week's article: stated with a publish date
- ✓ 90-day cadence: day of week + time + calendar block — all set

Finish at home

- Run the cadence — 30 minutes a week, every week, for 90 days.

If something stalls

Pre-cleared fallback moves. Pick one; do not improvise mid-block.

- Wi-Fi down → tether off the facilitator's phone; AI generation works on cellular.
- Voice capture weak → re-run on a single longer sample (a past keynote transcript beats five short posts).
- Op-Ed feels generic → re-run with one specific story from the attendee's career as the lede.
- Scheduler API rate-limited → export the 14-day calendar as CSV; attendee imports tomorrow.
- An exec runs ahead → assign them as peer reviewer for the slowest exec at their table.
- An exec falls behind → collapse Block 4's keynote opener; ship after the workshop.

Close-out script (Block 6)

"Stand up. State three commitments to the room: the post going live **today**, the article going live **this week**, and the 30-min weekly cadence — day, time, calendar block — you'll run for the next **90 days**. Block it on your calendar before you sit back down."

Final line: *"You walked in with a title. You're walking out with a brand that ships without you."*
